BOARD OF HOME MISSIONS OF THE PRESBYTERIAN CHURCH

P. O. Box 3863. No. 23 Centre Street.

New-York, Feby 26 1879

The following minutes was adopted by the Board of Home Missions at the meeting held Feby 25. 1879.

"A communication was received from Rev Sheldon Jackson D.D. explaining the action referred to in the resolution adopted at the last meeting of the Board. Whereupon, it was on motion, Resolved, That the Board accepts Dr Jacksons explanation as satisfactory"

- -

"A vacation of two months was granted Rev Sheldon Jackson D.D."

Rec Secy.

Feb 14. 1879.

Dear Brother

Yours of Jan 31st has been forwarded me here where I am visiting My family. The resolutions of the Bd have been received - It looks very much like condemning a man unheard - Surely no interest of the Board would have suffered, if they had first asked for an explanation

As to the title of Superintendent, it has been Leaving the Board from ~~200~~ 750 $ to $ ~~200~~ 100 per year in the way of passes over lines of travel - You go to the Superintendant of a Railway & ask for a free pass & he will ask you Who you are - You answer a Synodical Missionary & He will reply We Cant furnish you a pass - but our rules allow us to issue all Missionaries half fare & turning to his Clerk will direct him to make you out a Clergymans half fare permit

But if you Answer Superintendent of Presbyterian Home Missions for such States or Terr - He is accustomed to furnish Supts of R.R. Stage & Steamship lines with free passes - He looks upon you as occupying a similar position, & accordingly directs his Clerk to make you out a free pass - When Ministers wish him to introduce me to their Congregations

have asked me my title, I have always told them Synodical Missionary &c. But to the world for the benefit of the Board have taken the title of Supt.

As to the second point - Making addresses &c of my field without permission. I deny that I have done so during late years.

When 4 or 5 years ago I made addresses through Ohio, New York & Penn.a it was at the request of the Secretaries. When last year the Ladies ~~Synodic~~ Church to the Synod of N. Jersey invited me to make addresses for them through N.J. Dr Roberts will bear testimony that I declined to go until permission was obtained for me from the Secretaries.

When again they invited me this Winter, I referred them to the Board for permission.

If the Board wish me to do my work intelligently it is necessary that I have an opportunity to consult the Secretaries & mature plans at least once a year.

It is also necessary to visit the Theological Seminaries once a year in order to get Ministers for my distant frontier fields.

It is also necessary that I should

come last once a year to secure illustrations for my paper, settle accounts &c.

These three objects I combine in one visit to the east-, & while east like any other Minister or Missionary preach or talk when invited - but that at these or any other times I have gone off on unauthorized lecturing tours I deny.

~~So much for the letter~~ -

But while I feel that the action of the Bd ~~was unjust~~ without first giving me a hearing was unjust, yet they will always find me ready to obey - or to resign -

Now as to my request for a vacation next Summer -

~~I trust~~ I hope you will see your way clear to give it your earnest support. I have worked for years as no other man in my position has ~~worked~~, without a vacation, except a couple of weeks at Centennial Exposition. & am entitled to a vacation

2nd My family physician has warned me two or three times within the past year, that I must have a change or I would break down suddenly & permanently.

3rd There is no method of spending a vacation as taking an ocean

voyage to Alaska - As I have free passes up there & back. Mrs Jackson & I can get the benefits of sea air (a complete change from our dry Colorado air) without much expense, which is a great item with us.

4th My wife has broken down in health, partly owing to overwork & has been ordered away from home for six Months longer ~~at~~ to save her life. She & the Children are now at My Father's Galesburgh Ills -

5th You dear Brother can not have forgotten your anxieties when a few years ago your own wife was so sick, not to desire to extend me any assistance you can - very A sea voyage would be ~~no~~ beneficial to her just now, & as said before if we go to Alaska, it will cost us anything but incidentals

5th The appeal issued in my paper for a Mission House at Ft Wrangel Alaska, has brought to Mr Eaton your treasurer over $2000. & will yet run up to over 3000$ - Now while getting health, I can also serve the Board by Counseling with Rev Mr Young & Mrs McFarland - about the location of the building - letting Contracts &c. Remember Mr Young is just out of the Seminary, with no business

training or experience whatever, & no Minister within reach to call upon: My visit there at this time would save in the building from $300 to $500.

6th It is very important that a Committee of the Board should visit there. (a) The work of the Board there is just beginning, & you know how important it is to begin right. A few hundred dollars spent now in sending your Commission there will probably save you thousands in the future. For without an intelligent conception of the country & work you will be unable to avoid making Mistakes.

(b) There are great differences of opinion about Alaska, & as the Board is proposing to work there, it is all important that some of them should see for themselves.

(c) Dr Kendall & I have been invited by the Government to procure them information about the people of Alaska & will place a Revenue Cutter at our disposal when we reach Sitka. This would enable a Committee of the Board to visit points, to which there is no other conveyance, & which private parties could not otherwise reach.

(d) The Government are preparing to make an appropriation for School

purposes in Alaska, and they would be willing to place it under the care of the Presbyterian Church, as they have already done to the Indians in New Mexico. Provided a Presbyterian Committee showed visit that Country & report. This would give the Board $25000 & upwards annually for Mission work in Alaska

If the Presbyterians don't secure it, the Roman Catholics will.

(e) Valuable gold mines have been discovered in Alaska & it is expected that there will be a rush of Miners there in the Spring

(f) Three bills in the interests of Alaska are now before Congress showing that public attention is again being called to that Country. Indeed the Country is assuming such importance that joint bills are before the British Parliament & U.S. Congress making a large appropriation for a survey to definitely determine the boundary line between Alaska & British Columbia -

(g) Alaska is the most popular Mission the Board has -

(h) If you & Dr Roberts could be sent by the Board - I can secure you a

very low rate in the Steamship.
— Can get you first Cabin passage
& Board, for a trip covering five
or six weeks for $77.50/100.

It has been objected that my previous visit offended Dr Lindsly & that he has been alienated from the Board — Dr Lindsley, (like Saul & David) has fits of jealousy. But when I was there he was profuse in his expressions of thanks, & would be so, if I was to go again.

More than that the Contribution of his Church was largely made up of the Contributions of 2 or 3 men — (one of whom gives $2500.) These men would give the same whether Dr L. was pleased or not —

They are not giving this year, not because alienated from the Board, but because they have undertaken a Mission Chapel in Portland & have for the present diverted their large gifts to that.

Please excuse this long letter. It might be well for you to speak to Messrs Paxton & Roberts, if you have an opportunity before Board Meeting so that my personal friends can use their influence in securing my wife

& myself are needed trip

Kind regards to Mrs Van Dyke

By this Mail I send you some Western Photographs,

If you will take that trip to Alaska, you can stop in Colorado on your Return & see that Country

Dear Dr

The mormons have commenced hostilities - at their Quarterly conference wh. was held the 1st & 2nd inst some very strong language was used against the "outsiders" which have lately come among us" and our landlord has been the subject of their fiery darts. I supposed he would stand the fire from what he told me. but he has succumbed. Takes his children out of school and wants an immediate settlement of our affairs. My heart will bleed I think - Yet if there was a different place I believe I would take it for the room overhead is a shop you know and he has his workmen now and the noise is almost in-

tolerable. unendurable for any comfort especially for a school. Do get the brethren last to build us a Chapel. How are you succeeding?. Is there anything I can do to help you.

Our meetings are smaller than before the oppression and the disturbance from the boys outside greater. But we have very encouraging audiences. Men & Women come to hear. School is about the same some mormons still send. The apostates have formed a Lyceum in town & I am delivering a course of lectures before it on Science and I think it will be, indirectly, a help to our work.

Send us encouraging word about our Chapel. I am ready to pull off my coat & go to work building. Yours truly

Dr S. Jackson;

Dear Sir: Your letter of 7th ult is just rec'd containing Ck for One Hundred and Fifty Dollars It came in at the right time. If you are coming to Zuñi perhaps I had just as well wait until you come, before I Expend any thing more than this which I now have.

We will not teach another winter unless better rooms are furnished for the schools. Our Av. for Boys, this month (Jan) is 30 and for Girls 14. 85 boys on my roll. 25 girls on Mrs Eaton's roll. Mr and Mrs Rowe start for home on Monday (Feb 3d)

We need an assistant teacher.

Mr A. L. Earle has been here to visit the Zuñis and is visiting all the Pueblos. His address is care of Mr E. S. Harnas 177 Broadway N.Y. Enclosed please find receipt on the Board for $31.37. This is for the groceries which you had forwarded here for yourself. Everything was counted carefully at your own price & this is what it all amounted to, several things on the list were not in the boxes when we came.

We are well. The Indians have agreed to go for my photographs without charge.

Dear Brother

I suppose your friend to be a pious man & perhaps interested in S. School work, hence I might be able to interest the children. I am doing a little in that line. Some friends in Iowa City are getting interested in Mexican work. I hope to be settled soon so as to make a permanent home for those I may be enabled to gather in. I will be very glad to go to Conisco. I hope it will be soon, and that I can take my boy with me. Do you think a boy sent from here could be put in a Reform School in the States. There is a very bad boy here about 16 years old whom Mrs Sharon says she will not take, & he is willing to go to the States but he is so dishonest. That I would rather see him put in a Reform School than any other -

Dr Shields was here last Sabbath. He has had a trying time. Do you think Mr Pierce and wife will go there Dr. S. does not seem to think it best to make a change on account of the Indians — Though I suppose the matter is not decided

The three hundred dollars sent me by the Ladies last year B'd has all been used but nothing for this year, therefore after teaching thirteen weeks. I wish Mrs Shearer to tell the B'd not to be here I was paid. I think I told you — How long do you think I will have to wait for a commission? Can the B'd issue one at any time? I still watch for the morning. Your friend's gift seemed to be the breaking —

Yours Sincerely

M. E. Griffith

P. S. Mrs Shearer would make me believe the B'd and every one else would go back on me. She is an able woman but her health is not good.

Feb. 4th, 1879.

Rev. Sheldon Jackson, D.D.
Denver, Col.

Dear Brother:

I want to write you a letter in confidence. I write for your counsel as a friend.

I would like to leave Longmont. God has blessed me here. In the 21 mos of my labors here the Church has grown in its material interests, and has increased in membership from 32 to 55. I have made strong friends among the people and the Church is united. At the same time, I am persuaded, after thought and prayer, that it would be better

for The Church, for the people and for the glory of God for me to go; and for the following reasons:-

1. I am beginning my ministry and, Therefore, forming life habits. Now The people of this parish are so scattered That it is next to ~~im~~impossible for me to care for them and keep up the systematic study which I feel to be essential to my success as a minister in after life. My members, living as they do so far from the Church, are not situated so as to do the many little things about the Church which a pastor ought not to have to do. Now an older pastor could prepare one new sermon a week & still have more time left for other work than I have.

2. So, my second argument for going is, that the people will be benefitted by this step.

Since I have been here I have declined a call to become Asst to Rev. Dr. Irvine of Augusta, Ga., and have decided not to go to Cal. to Churches which a friend assured me I might be called to, if I would intimate that I would accept the call. I received a letter from N.Y. the other day asking me if I would go as Chaplain to the Wordruff Scientific Expedition Around the world. Before this matter was laid before me I had made up my mind to make a trip to Europe. But on many accounts I would rather wait a year or two before traveling, chiefly that I might enter upon a course of

Systematic preparatory reading.

Now I want to do the will of God. I am willing to spend my life here if He wills it. But it does seem to me that I can serve the Master better in a parish in which the people are not so scattered. I do not care to leave Col., or the Home Mission field.

Perhaps you can help me in this matter. How about Col. Springs? I hear that Gage has resigned. Do you think that I could serve the Church and the Master there? If the Church there, or in some other field where the people are living less scattered than here, should call me, I should in all probability accept the call. If such a call does not come before next Spring or Fall I shall ask Pres'y to dissolve my relations with the Church here, and spend some time in travel, returning to America to settle wherever Providence may place me. Let me have your prayers & counsel in this matter & believe me to be Yrs fraternally, Ed. M. Deems.

For Jackson's work

Dear Bro—

I have not written to you for some time for two reasons, 1st I wished to see the Church done first and it present— 2d Because I felt as if I were troubling you with too many letters,

Our Church is now practically done— Yesterday we held services in it for the first time; had a very quiet time indeed. Many were out to hear the first sermon in the new church, all felt proud of the building and the way it had been built but had not one word

to say about debt that being
no such incumbrance -
Nevertheless I had a pe-
cuniary opening taken up for
incidentals, such each one
annoyed that his neighbor in
trying to give more than the
other, which made a handsome
offering. It did seem as
like preaching once more
to speak over a fine Com-
munion table, $5 a desk, mistook
of over good books and
vases, and the seats
were so comfortable for the
people, they sang with a will -
I took the opportunity to
preach on the words of the Lord
from Matt 16. 26. "What

will a man give in
exchange for his soul"?
The Lemon has done
in part what I prayed it
might — God could at least
and found Jesus — a
Lady of large influence and —
I am thankful —
But I have a special
object in writing to you
now. I have put off decl —
aration services till spring
about May 1st or 2d Sab —
thinking that then the
country people could be
come in and that we would
have communion at that
time — Then I wished to
have several of the brethren
to assist me. I want now

and wife to be sure and
come without fail. The people
expect you here anyway —
And you ought to strike
into Pagosa with some

once upon the setting of
the weather — There is quite
a settlement there now,
Sent my application
on behalf of this people, for

My Dear Brother;

Your kind note of the 14th inst. at hand. Have sat up all night writing as the Steamer will leave today & it is now four in the morning so can only send a line or two. Thanks for congratulations & good wishes. If the best of wives, the object of home & the most promising of fields can make a missionary happy I am surely so.

My wife wishes to resign her position as teacher & I am anxious to have her relieved just as soon as a substitute can be provided. In the mean time she will continue to "hold the fort" - a double sense. Can you not locate the teacher? I have written the Board to that effect. Have you had a talk with Dr Wilson of the P. & S. S. concerning our Church building. I do not think, considering the state of affairs here, that the immediate organizing of a church would be at all expedient & I wish to know if the rule is inviolable that there must be an organization before assistance is rendered for the erection of the building by the Board.

I am very anxious to get the church - I may say must have - up as soon as possible. We feel encouraged about the Home. Thanks many many thanks for your noble efforts - behalf of our mission.

I shall send you a series of articles - I hope - by next mail for publication. I have been rather remiss in this duty but these first days take up much time. I am only just getting my heart hardened sufficiently to enable me to bluff the Indians off when they come with their troubles at my busy times.

Thanks for papers. Just what we need. We need also old Sab. School papers.

God bless you in your work.

Rev. Sheldon Jackson,

Dear Sir, —

A short time ago, I sent to you for copies of the Jany number of "Rocky Mountain Presbyterian", which contained articles on Alaska. I turned them over to Joseph Cook, and he referred to them in his Prelude of last Monday, a copy of which I enclose to you.

Dear Dr. Jackson:

Did you think to speak to the Secretaries about the expediency of allowing Gallagher to draw the $200 of expenses in going to this field last summer? This all the more meritorious since he is obliged to pay from his own pocket about $150 for Coal work.

I am very sorry, Doctor, that you are loosing attention from all this necessary & important work in the Territories by any further discussion of Alaska. I am thoroughly convinced that this movement to make that Enterprise, from-ment. You see that special interest there demand special funds, so that more important fields

are not interfered with temporarily persuaded me that we were right But I am surprised that I did not see the weakness of the argument. The simple fact is, the same Efforts necessary to set up special interest in Alaska would also set up special interest in far more important fields. We cannot occupy Every field. Now, the ideal course to occupy those fields where influence will radiate in every direction, I feel the people in Alaska are Christians, they would do work as much to the county as the world as are the Christian in Arizona, New Mexico, Utah or Idaho, Ore, and in this Territory is half thrown away in consequence of having no building to work in. We need more missionaries + more teachers. There is the

wisdom of sinking money in Alaska so long as so many important fields right in the heart of the country are unsupplied. Now if you can convert me over again to the wisdom of the Alaska Enterprise, all right. I've expressed these same views in a letter to Dr. Kendall today.

Our Presbytery meets on the 14th of March. Please write me about it referring to the success of your efforts in securing Chapel funds so that Presbytery may act accordingly. Hope you are well & doing.

Everything looks encouraging in the Parish. New mines being discovered. New Railroad enterprises being inaugurated, etc. The Mormons

are furiously mad about the Supreme Court decision. & Ether keepers have due little else lately besides abusing the Judges. That great good will. Yours in the fellowship of the Gospel

Dear Sir:

It was a source of sincere regret that on the occasion of your rece-or visit to Mr Littles ~~Church~~ in this city I was too ill to meet you. I wanted to see you about a proper place to give our money, collected in the Sabbath School. The missionary spirit has been very faint for some years. Last year I endavoured to arouse enthusiasm by personal work here in the city, the attempt was successful. Our school is an earnest, hard working one & this year we want to do something for Home Missions I would like to send what $ money or supplies we raise directly to some mission school or missionary where they are in need and where we can keep up a regular correspondence. The more needy the place the more we will try to raise. Our contributions would not be over $100 or $125. perhaps. This is more than we raised last year. but by systematic work with an object in view we ought to and will

Dear Sir -

I have a "band" of eight young girls who meet at my house once in two weeks. They have been working for the Christmas - last week they said to me - "how nice it would be if we could make a few things for some little children belonging to some Home Missionary family" -

How can you help

no chance finding the
family —
I The girls are young
girls — and not much can
be expected from them —
but I wish to encourage
an interest they have for
Home Mission —
I thought before summer
came — they might make
a few under garments for some
little girls — and some few plain
dresses for girls (little girls —) if you
know of any family where there
is a boy a year old — and one
or two little girls. It would suit
nicely — They could make

boy's clothes - and I do not wish to subject her to send a boy to the rest of the family - for we could not see our way clear to do it this year - but we can help the children perhaps -

I would wish the sizes of the children - the ages - and names - and what they most need - The girls will be more interested if they can call them by name - and feel they are helping them for the summer -

Hoping you will be able to help us - With sincere regards

Dear Bro. Jackson

I write you Sab
y your letter comes
from Galesburg this
morning. So I expect
you will get it at once.
I have a letter from
Dr. Shields at Jones
ro which he asks for
two teachers young wo-
men of Christ Pa-
The Dr. says Dr. Thom-
as will com. one as a
Gov. Teacher. But who
will the other one do?
What does he want of
two until we get the ap-
propriation. I cant

the Industrial School?
Can you throw any light
on the case?

I can understand
how lonely one lady would
be there alone - & the
scandal there might
be if but one were
sent to dwell with
him. It is a hard case
any way - But how can
we beg for a woman
to come out there entirely
for company unless
there is enough work for
two teachers -

Do you expect to go
down to Nice - Mr. Dean?
If so perhaps we can
arrange for you to ac-
company those girls if
they go -

Dr, Sir.

I send you a letter from an old friend & mine at Parrod Prairie — you perused from it how matters are over there —

Perhaps you can make some headway through some governmental officer

I thought it, and them at least to suggest this from the facts stated in the inclosed letter

Now I have an other matter which I know will interest you —

Last Friday Dr,

called, and Wallace
his wife & Miss Jennie
Dawes got up to
sing it in order to
be in a fund to get
the new organ for the
church. To our
surprise and comfort
on the evening of the entertainment we raised
almost the entire amount
necessary and this too
in a most generous
and creditable manner
Our method was to
have a small admission
fee at the door 25¢
Then next a short
literary entertainment
then break up in to a
social mode by opening
a book stall for the sale
of books &c. This was

rill that we had proposed
except it grew. I stuck
to close with —

But Kindness seemed
to hand & tired the Saloon
men and others to help
us nobly — This they wished
to do in a homeless way
& turn round in to have
many parts, who wished to,
market a fair candidate
among the ladies for whom
they would vote paying 10¢
per vote — after the voting
had proceeded till almost
every young lady was out
the ticket — There were only
2 stood their independent
candidate — a poor girl,
who labors hard for a
lively-hood but is sensible,
modest & unassuming —

They elected her by

placing in large donation
of money and the table-
spoon which as a token
of regard she was presented
from the handsome prize

Now I really think
these people ought observing
of notice in a public
library for this and the
moral to those Scotsmen
men & others who, as
I sincerely & satisfactorily
ascertained only had
good will & honest purpose
in this generosity of
heart - am flowing they

Our Church building is entirely finished except that we planned for papering with building paper and covering this with tinted paper. We would like now to know what kind of a border and we can get one each kind for a room 22 X 40 - deducting 6 windows 2 X 3 ft. 4 in. 1 doors 4 X 7½ ft. wainscoting 3½ ft all around room - $6 for each I recolect the measurements just now, At least this will not be far short of what we want -

And if this reaches you soon & and have time it would, or might help

Utah
Ogden, Feb. 17th, 1879.

Dear Doctor:—

I wish to ask your advice in reference to a plan that I have. I think that I could obtain some funds for Ogden, if I should start out and deliver a lecture on Mormonism. My plan is not to make application on the Sabbath; for ministers and Sessions are shy of soliciting missionaries and agents for benevolent societies. But a notice from the churches stating the object of the lecture and lecturer, and that on some night in the week he would deliver his lecture, might effect considerable. I think it would. Mr McNiece says that ~~it will not~~ the endorsement

of Presbytery can be obtained. I feel that something must be done. Our usefulness here is almost destroyed because we have no appropriate appliances. If we had a good school building and a church I could do twice the work and accomplish four times as much good. The Mormons laugh at our feeble attempts to evangelize them. They look at the outside. A good church building and school house would be a tower of strength. The Mormons would go round about such a building and mark the towers thereof and see that the house of the Lord was built & stand.

Please write me as soon as you can in reference to this point of my going. Give me any suggestions that may occur to you, as to what

places might be visited &c.

I wish you would put a notice in the Rocky Mountain Presbyterian saying that we need scholarships, and that thirty dollars will pay the tuition of a Korean child. I intended to drop you before this & insert this notice.

Mrs. Gallagher joins me in sending kind regards to you.

Yours in Christ

Geo. W. Gallagher.

Dear Brother

Your last favor came in due time. I got the papers at Centre St & have distributed - I brought the building suggestion before our Ex Com, & they did not heartily fall in with the idea of the Separate Houses - although they thought the plan proposed at first might be modified - that instead of bring to the Central Building, they might be set off as Separate houses if deemed best - these Separate Cottages or houses, require each a Matron or Nurse - Brother, as it is called, What you could now command for Alaska just now - At most, you

could have but three Assistant Teachers at present, & these girls should be under their eye - they would be very much exposed in separate Buildings if left alone - & should the plan of Mr Kendall mentioned of a Boys School in the same Compound be carried out there would be room by & by - I do not feel as if I am the wisest in these things; but the other ladies expressed the same views, without knowing mine but after all it will not do to be kept to you think the Council of the Board to take heed upon. If we get up the Central Building, there is at once a Home & a School - This is established - Afternoons it seemed best to have a separate Building for school rooms &c it might

the most expedient to move school into it, & then the school rooms of the central Building could be turned into dormitories - There ought to be no danger of fire, if the suggestions I have noted after - Consultation seems to be now what we must have, but I am writing from our standpoint & not from consultation with the Board - We have added many pupils since the day of our meeting to the Fund & some days, given us for the running of the Home - Should Mrs Fairbank like give us items to increase interest - I have written her at length upon many points, hoping she may be helpful suggestions -

I spoke to Dr Reynolds last time I saw him about Mrs Griffith - He seemed very uncertain as to details, but to open a work - She certainly has not done right

at Ita K - Because they did not send her a Commission, she would not teach in the Sch. She never had one, for they said they gave no Commissions to Native Teachers - Letitia as long as she had a home in the Island, she ought to have continued to do her part - But long before she left it, she would not teach, or if she did so Mrs Ireland's Mind was so dependent on her - that Shannon had to engage a Teacher - I can not find out what Mrs G. did do - either for her self or any one else's - Mrs Shannon continually asked us to retain Mrs G. for the winter at least, for she was delicate & [illegible] of her unprotected situation - I think Mrs G is a good woman, but she works just as the Native Teachers do - You can't give her credit for good judgment, as you think of Miss Crawford, & she certainly is not a trained regular Teacher - Dr Marshall seems

at a loss what to say or do. We had some letters about her from Mrs Pt, which were not satisfactory. As far as our work there goes, I think she was fully paid by a home in the Building. Last winter she did good service I suppose, in keeping the rudiments of a School. We will be happy to wait the action of the Board in regard to her. You probably know that Miss Pitts is no longer under the B.d. She writes that the merchant there offered to pay all expenses if she the School in their house. That she may not have as many American children, but will have the privilege of teaching the Bible & give religious instruction.

I am sorry you did not go to

the South Church used up. In spite of the storm all the old Faith were there turned out to hear you. It is understood that Miss Jones decided it, but it was a great mistake. They have sent a nice box to Miss Shreve and I am so much interested. Yours truly

Revs. Drs. Kendall & Dickson,
Secretaries, Bds. B. & M. }

Dear Brethren:

I write to ask, through you, whether the Board of Home Missions could grant Dr. Sheldon Jackson, of Denver, Col., permission to visit & address a Woman's Missionary Convention, to be held about the first of May, in Belleville Ills., fourteen miles from St. Louis. I have already written Dr. J. upon the subject, & he replies he will come, provided it

is the pleasure of the Board.

We are urgent in our request for Br. Jackson,

1 Because some of us are painfully conscious of a lack of Missionary interest in many of the Churches of Southern Illinois. We have hopes that a live Missionary, aglow with Missionary enthusiasm, with large Missionary intelligence & experience, fresh from the field, will awaken a deeper interest in the cause, & we do not know of a more available man than Br. Jackson.

2 Alton Presbytery has for the last year

or more had a Woman's Missionary Society. It is proposed, in connection with its Annual Meeting here in May, to invite all the churches of the Synod of Illinois South to send representatives, with a view of enlisting & awakening an interest in this work throughout the entire Synod, in order that Societies may be formed in the other Presbyteries. It was thought that, perhaps, as the time will be so near the next meeting of the Assembly Dr. J. could conclude to visit us without inconvenience.

Dear Bro. The bundle of clothes which you send or caused to be sent to us from Denver we have not yet rec'd I went to Mr Symes myself for it & he told me he had sent it to the fort in care of the Q.M. Sergeant - & while in the fort I had a good deal of business and when we got pretty up in the mountains I thought if I had could not go back for it but it had had it for them here some very cold days. Our feet were frozen a little, I will go to the fort in two days & will look after it.

Dear Sir,

Enclosed
you will find P.O. order for
$100 for "the Home" at
Fort Wrangel Alaska.
Our little church has become
more & more interested
in Missions. The Ladies have
a Mites Society & are
trying the interest will
increase. What now we are

repairing our church which of course is an expense. This money sent for the home is only a trifle & comes not from the Misses. Soe, but from a few who are interested & wish to be useful in the good work in Alaska. We hope there will be "more to follow" Please let us know how you receive it.

My dear Friend

Two or three little things had happened, and Dr Kendall suggested that I should write you about them, although they probably are known to you even before coming to me. Miss Pitts writes, that the family of the merchant in Lostillo have offered her a home to teach their children & take such others as will come - That she said, would relieve the Board of her salary, & while it might cut off some of the more poor children from the school, yet it would enable her to teach the Bible freely, have S.S. & enter into any other Christian duties - This matter has been decided by her own action, whether best or not -

Miss Ross left the family in which she had
placed her, because encouragement she thought
she could provide for herself at less expense. This
of course roused the ill will of the woman
who said a great deal against Miss Ross, but
she shunned while seeming to keep up a friendly
exterior. Miss M. thinks there ought to be two
teachers always together but we could not insure
so harmonious and congenial time for so few scholars
when there are places where they could be gathered in by scores. Miss Ritter had to leave to go
to Miss Ross who was very ill which suspended both Schools for a time. Miss M. suggests
that she knows a widow lady, who would be
willing to go to her from Delaware, Ohio. She
says "I propose as soon as I is in Colorado
Mary to have it transferred to that Rev.
where the salary of another Teacher

little mine would be only $100 more than mine now is." I don't know how she makes that out, unless they agree to take 300 each but then it is the print. Write to Kendall, whether she could take it for— Can you give me any idea? Write in haste for I am expecting one to come— I write for to discover, not knowing that you would remain at Galesburgh any time, and regret my unwell to learn that you have not been well— Remember that good people are scarce, & be sure to rest & recruit— The Board have $2,500 dollars for building in Alaska, counting in what we have paid them— We are receiving now some amounts for Scholarships & expenses— How soon shall you go there? Write the disturbances at Pekin at rate

affect the work at Fort Monroe?

On the "4" vacancies" our-

ness. Dr. Dickson said he had written you a frank & manly letter against your interference in the matter as offensive to Dr. Lindsley, & he thot Dr. Lindsley was the man to go &c. I joined in & said I thot it would be a good thing for the Board to ask Dr. Lindsley to go which was done. I enclose the resolution - & I shall write the Dr. that if I go up I should like to have him go up with us see the county - visit his mine - help us determine about mission matters &c. &c. - But they would rob you the vacation. Mr. Eaton broke in & said that the way you came to go to Alaska was that Dr. Lindsley sent you up there & I did said that he sent you down the Willamette valley lecturing till the Steamer came along & on the whole I think the Board began to think that it would not be a very awful thing if you turned up to Alaska again.

Dr. Dickson was also kind enough to say he hoped I would go. Dr. Hall was present & took

his usual lazy- hunted
& high- minded views
about you & I think you
are; standing was quite
just back again into the
proper place- At last
you have your vocation
& can do what you please
& if you have half the

for. you write to Br. L.
& ask his company, co-

the Campaign & win
his approval if you do
not secure his company.
But I think it will
be best to have him with
us & I shall urge it- And
then engulf the general

work. The future will

As to other matters-
1. Jersey, Dr. Shields-
We have just now a letter from Dr. Shields saying that if we will send Perry, his wife to the Cairo four miles above he will do without a teacher for awhile. We now propose to let P. locate as aforesaid, as Mrs. Perry is already under appointment. If she can come down daily or every other day & assist Shields for awhile perhaps till you have been there & learned

the matter over again we will let it stand so. Meanwhile opposition may so subside that P. & his wife may make head-quarters at Jerusalem. But if not, we are then to push two unmarried women into Jerusalem. Phillips will want to marry one of them & that may set them the after work. But if you can get them & find your way to it - & find you can talk him he must have a wife. & cannot get along without one - & he will say that he wants to marry one of these - let him tell her so & if need be come after her." Dear Bro. Jackson.

I have written to Br. Shields, who says if we will let Perea's wife come there - he will locate them up the Cañon 4 miles & he will wait longer for that is deper the appointment of those teachers from Coyote &c. (Their names you inquire for they are Miss Charlotte A. McAllister, Miss Laura B. Work.)

I have told him to utilize Mrs. Perea in his school if he can - if so, her Commission holds good.

But if not she must not start a School up there till you come. It may not be wise to have them remain there. See my letter to him as soon as you get there.

2. Business is Business I have asked Shields if he knows those Ladies if so if he can't marry one of them!

Dear Dr Jackson: You talked of coming out to Zuñi in the spring. Did not designate the time. Do come. We are now alone - Mr Miller having left for Jemez two weeks ago. We will be glad when our assistant teachers comes. I am obliged to be away sometimes then it is very unpleasant to leave Mrs E alone.

Mrs Perea was not paid anything while teaching Coss quarter, or got nothing for board. She taught two months.

I am appointed P.M. in Zuñi Valencia Co, N. Mex. This is good news for us, & think that we are to have a P.O.
